

Thompson Guide

Thompson Speedway Motorsports Park
205 East Thompson Road, Thompson, CT

TSMP is a 1.7 mile road course located in north-central Connecticut, a bit over an hour from Boston. The track uses a bit of a short-track oval, combined with a rejuvenated reopened in 2014. Most of the track is flat, with one (somewhat awkward) hill just before the front straight.

Track Map

Track direction is clockwise. Pit out in on the inside of the long straight. Stay right until you merge with traffic. Pit in at the beginning of the long straight, track right, just past the crest of the hill. Mind slow traffic here.
