Member # _____
or name

PRESIDENT: Simon Cooper has been a member of the BMW CCA since 1999, but has been a fan of BMWs since 1981 when his Dad bought an E12 520i while serving in the Royal Air Force in Germany. Simon has been active in the club's driving events and has progressed from student to instructor in both High Performance Driving as well as our Advanced Driving Safety Skills programs. For the past 5 years he has served as the co-chair of the Driving Committee. He has also served as an appointed and elected member of the Boston Chapter Board for seven years, most recently as president since 2012. Simon believes that the Chapter exists for the benefit and enjoyment of all our members, a group with diverse backgrounds and interests. He supports the continuation and growth of the driver education programs and social events, but would like to increase the diversity of programs and the number of participants. He is looking forward to serving again, and is honored to give back to the club that has given him great fun and many new friends.

VICE PRESIDENT: John Sullivan has been active in the Boston Chapter since 1989 and is the current vice president of activities. He served as Chapter president from 1991-1995, vice president from 1989-1990, and again from 1996 to 2016. He also served as the North Atlantic region vice president of BMW CCA from 2006-2016. As vice president of activities John coordinates most of the social and technical events, including: fun rallies, undercarriage tech sessions, paintless dent removal, the RI show & shine event, The Boston chapter Concours and many programs hosted by BMW dealers and independent shops. He also organizes the Chapter general meetings, for which he consistently recruits nationally recognized Speakers. John always brings enthusiasm to his work for the Chapter, and is looking forward to another great year.

TREASURER: Jack Woods has been a Board Member and Treasurer since 2008 and has been a CCA member since 2003. Jack enjoys the camaraderie and friendships that he has made at track and social events and has recruited family and friends to join in the fun. He says he is most impressed with how knowledgeable members are and how willing they are to share their expertise, on and off the track. As the owner of Central Business Solutions, a Bookkeeping, Accounting, Tax and Payroll practice in Peabody, MA, Jack is well qualified to serve as treasurer and sees it as his chance give back to the Chapter. With your support, he looks forward to working with the board to help improve the financial management and the general operations, activities and social aspects of the club.

SECRETARY: John Oglesby has been a BMW CCA member since the BMW dealer talked him into joining the BMW CCA Michiana Chapter to get parts and labor discounts for his 1988 M3. He moved to New England in 2000 and became a member of the Boston Chapter and has served on the board since 2006 first as treasurer, then for 5 years as President of the Boston Chapter. John has participated in both social and track events and became a high performance driving instructor in 2006. He has been the owner of a couple of E30M3s, a 740i and he has owned a bunch of other "famous" high performance cars. He recently sold his beloved '88 M3, partly so he has more time to drive his 2016 M2.

MEMBERSHIP: Matt Bagedonow has been an active current member in the club since 2007. He was a fan of BMW ever since seeing the 1602 on the road and finally bought a 1975 2002 in 1980 and joined the club. A decade later, he sold his beloved car to wander for twelve years in the wasteland of mini-vans to haul the kids around. After buying an E46 in 2002, he waited a few years before re-joining the club. Since then, Matt has been participating in club track days and helping out at the yearly Concours. He has learned a lot about driving and enjoys the club's camaraderie so much that he feels it is now fitting to run for the membership chair so that he might introduce others to the benefits, conversations, and fun to be had in the club.

DIRECTOR: Rachel Baker has been a member of the BMW CCA since 2008 when she bought her 135i which is now pushing 185K miles. Rachel has been an invaluable member of the Autocross team. In her role as registrar she is often the first contact with members participating in Autocross. She answers their pre-event questions and is the first person to greet them at the event gate, offering a warm welcome, advice and information about other Chapter events. She is actively involved in many Chapter activities, and as director she will continue to help others find, share and develop their interests within the club and advocate for the Autocross community. The Autocross Team says Rachel is a dynamic force who brings people together and will leverage her energy and promote Autocross within the board and the general membership.

DIRECTOR: Jeff Lavery has been a member of the BMW CCA Boston chapter since purchasing his first BMW five years ago, a 1987 325is that has been lovingly restored to OEM condition. He is a regular fixture at Rhode Island events and routinely helps organize gatherings including tech sessions and cars and coffee meets. With a RHD grey-market E21 currently under restoration, he's a Bimmer fanatic through and through. When not distracted by mesh wheels and inline sixes, Jeff is a public affairs manager for Cox Communications in Rhode Island and he resides with his wife in Warwick, RI.

DIRECTOR: Michael Mangini became one of the original BMW CCA members when he purchased his first BMW, in 1974. Early in his membership, he served as a co-rallymaster and ran several rallies for the Chapter. He has served as the co-chair of the Boston Chapter Concours d'Elegance and has been instrumental in the event's growth in popularity by actively promoting the event online on BMW enthusiasts forums. As a member of the activities committee, he has worked to coordinate and promote the Chapter's other events, and currently serves as the activities editor of the Chapter's Facebook page. Michael has owned many great BMWs over the years including his Verona Red 1974 2002tii purchased new, but his current favorite is his 2011 M3 which he learned to more fully appreciate and drive after attending the BMW M Performance Driving School. With your support, Michael will continue his work for the Chapter with emphasis on expanding social and tech events. ♦
